

Year/Model Interchange List -- Domestic Makes - Cars and Trucks

13-Apr-07

Suggestions for using the YEAR/MODEL INTERCHANGE LIST (Clones/Sisters List) for DOMESTIC MAKES:

1980 is an arbitrary cutoff point. If 1980 appears as the first year, this does not necessarily mean that earlier years were not of the same body style. This list is created for researching primarily frontal impact tests.

When referring to the year span that a particular body was produced, remember that this does not mean that the body had the same NAME throughout the years listed. The practice of switching model names to different bodies from year to year is very common. Be careful! Remember to watch out for wheelbases if you are concerned with Yaw inertia. The first year produced may contain a reference to which vehicle the subject vehicle was based on, if applicable, or Whether the subject vehicle was a restyle of an existing vehicle. This may be of assistance in trying to find a greater sample of similar vehicles. This information will generally be listed ONLY in the first year of production.

In the General Motors list, only the Chevrolet listing will contain the complete listing of model names for the other divisions' vehicles. Others will refer back only to the applicable Chevrolet model, where the full listing may be found.

Body=Type of constr. f=frame/body, u=unitized.

Drive=Drive wheels. f=front, r=rearBody Styles: 2d=2door,3d=2door Hatchback,4d=4door,5d=4door Hatchback, SW=Station Wagon SUV=Sport Utility Vehicle

WB=Wheelbase. When more than one is listed, they correspond to the order of body style listing.

Please also allow me the standard disclaimer that I do not in any way guarantee the accuracy of these lists. Some similarities represent my own estimates, and some of the older years are from memory. Most are pulled from specifications tables, which may contain inaccuracies all their own. Use common sense-if something seems wrong, check it (and tell me). If you have suggestions, corrections, etc. contact Greg Anderson, (608)256-8020, Fax 256-0212, e-mail greganderson522@cs.com

Year/Model Interchange List -- Import Makes - Cars and Trucks

13-Apr-07

Suggestions for using the YEAR/MODEL INTERCHANGE LIST (Clones/Sisters List) for IMPORT MAKES:

1980 is an arbitrary cutoff point. If 1980 appears as the first year, this does NOT necessarily mean that earlier years were not of the same body style. This list is created for researching primarily frontal impact tests.

The first year produced may contain a reference to which vehicle the subject vehicle was based on, if applicable, or Whether the subject vehicle was a restyle of an existing vehicle. This may be of assistance in trying to find a greater sample of similar vehicles. This information will generally be listed ONLY in the first year of production. Remember that if you are concerned with Yaw Inertia, watch out for different wheelbases on the same model. These lists were produced with frontal crush data in mind.

Body=Type of construction. f=frame/body, u=unitized

Drive=Drive wheels. f=front, r=rear, 4 or a=all

Body Styles: 2d=2door,3d=2door Hatchback,4d=4door,5d=4door Hatchback,SW=Station Wagon

WB=Wheelbase. When more than one is listed, they correspond to the order of body style listing.

Please also allow me the standard disclaimer that I do not in any way guarantee the accuracy of these lists. Some similarities represent my own estimates, and some of the older years are by memory. Most are pulled from specifications tables which may contain inaccuracies all their own. Use common sense-if something seems wrong, check it (and tell me).

If you have suggestions, corrections, etc. contact Greg Anderson, Scalia Safety Engineering, Madison, WI (608)256-8020 Fax 256-0212, e-mail greganderson522@cs.com
